**Stop timer (ON):** On the game list menu, the **timer** stop Countdown. Player must press 1P A button to enter the game after selecting.

**Stop timer (OFF):** On the game list menu, the **timer** start Countdown. The player will enter the selected game automatically in 60 seconds.

## 8) Music

**Music (ON):** With music on the game list menu.

**Music (OFF):** Without music on the game list menu.

## 9) Language: Change the language between English and Chinese.

## 4. Edit game list

- 1) Enter DIP Switch Setting menu (figure 8), set System mode to Config/Edit mode, save and quit the system settings menu, then enter the game list (figure 2).
- 2) Before enter the game list (figure 2), press any button on the counting screen with "5...4...3", will show the menu as below figure 10.

```
1P_A to Enter Submenu
1- Exit .
2- Edit game list .
```

(Figure 10)

- 3) Moving 1P joystick down or up to Select "2-Edit game list" and enter the "edit game list" menu as figure 11.

(Figure 11)

- 4) The item “\*” means to show game list, if there is no item “\*”, it means to hide game list.
  - Select game list by moving 1P joystick and press button A to decide to show or hide the selected game.
  - Press 1P B button to show all games and 1P C button to hide all.
- 5) After the game list edition is finished, press 1P START button to enter the save menu as figure 12.

(Figure 12)

Press 1P A button to save and quit the selection, enter game list later (see figure 2).

Press 1P B button to cancel and back to edit game list menu (see figure 11), and then continue to edit game list.

Press 1P C button to quit without saving, then enter game list menu (see figure 2).

- 6) After editing the game list, please enter the DIP Switch settings again (figure 8), set system mode to “Normal play” mode and save.

The game will be started in normal after the system reboot.

## 5. Single game setting and operation

- 1) Please refer to “edit game list” as above, and enter the edit game list menu (see figure 11)
- 2) Select game list by moving 1P joystick and press 1P D button to set. If it shows “SET” in front of game title you selected, that means the setting is successful.
- 3) Enter the DIP Switch settings menu as figure 8, set the **Game mode** to Single mode, and **System mode** to “Normal play” mode and save. The single game will be started after entering the game list.

## 6. Game configuration settings

### Way 1 for Game configuration settings:

- 1) Enter the DIP Switch settings menu as figure 8, set **System mode** to “Config/Edit” mode, save and quit the system settings menu, then enter the game list menu (figure 2).
- 2) Moving 1P joystick down or up to select the game you want to change, Press 1P A button to start game and enter the game configuration editor menu as figure 13.

(Figure 13)

(Figure 14)

- 3) Move 2P joystick to select “Dip Switches” and press 2P A button to enter the setting menu (see figure 14).
- 4) Select option by moving 2P joystick down or up, and left or right moving is to change.
- 5) Select “return to main menu” to quit the setting menu after setting, and select “Exit game” to back game list (see figure 2). Restart the game, then new settings is valid.
- 6) Please go on to set other games if there are, and if not, please set System mode to Normal play mode. Enter the game list and the game will be started in normal mode.

## Way 2 for Game configuration settings:

Refer to way 1, enter the game configuration editor menu, if choose "Dip Switches" to enter the setting menu as (Figure 15) or (Figure 16):

(Figure 15)

(Figure 16)

- 1) Please set “Service Mode” to “ON”, back to game and enter the game configuration setting menu (for some game, it's need to quit game first, back to game list menu and enter the game again, then available for entering the game configuration setting menu.)
- 2) According to the game configuration setting menu to modify it.

- 3) After finish it, press S1 to show the game configuration setting menu (figure 12) , set “Service Mode” to “OFF” and save it.
- 4) Set the system mode to “Normal play” and enter the normal playing mode.

## **7. S1 button function declaration**

System setting button, press S1 button to enter the system setting menu when the screen show “Game Family” logo (figure 3)

On the Normal play mode, press S1 button to quit and back to the list. (Figure 2).

Config/Edit mode, press S1 button in the game to show the configuration setting menu. (figure 13)
